

ABB's three-pole DC switch-disconnector is designed for 2,000-V utility-scale photovoltaic power plants, enabling increased power output while reducing electrical balance of system costs by ...

Construction has officially commenced on the Santa Teresa solar and storage facility, a significant renewable energy facility in Do#241;a Ana County, New Mexico. Developed by DESRI (D. E. Shaw ...

Utility-scale solar projects are continuing to advance across the United States. Solar represented 77.7% of new capacity added to the U.S. grid in 2025 through April, according to the Federal Energy Regulatory Commission, and continues ...

IRENA (2025) - processed by Our World in Data. The renewable power capacity data represents the maximum net generating capacity of power plants and other installations that use renewable energy sources to produce ...

Utility scale solar submissions increase Submissions for utility scale solar farms has been at heights not seen before. With over 7GWp submitted to date this year and over 5GW submitted ...

Deciding between central inverters and power optimizers for utility-scale solar projects involves careful consideration of several factors including efficiency, cost, and the specific ...

In this study, we evaluate the impact of net metering regulations on the adoption of solar rooftop installations in Afghanistan. We posit that effective net metering regulations can significantly ...

According to ICSC Chief Data Scientist Jephraim Manansala, this rise in unregistered solar affects how distribution utilities plan and manage the grid. SPECTRUM classifies rooftop solar into ...

The Brechin Castle Solar Ltd, a joint venture partnership between bp (35 per cent), Shell (35 per cent) and NGC (30 per cent), has achieved first electrons from the nation's first utility-scale ...

Explore how Avaada is shaping India's clean energy future with utility-scale Battery Energy Storage Systems (BESS), including a landmark 2.1 GW project to support a sustainable and ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MoU) with Solaris Energy Ltd., a leading solar distributor in Sri Lanka, to ...

Solar Power World, the leading solar publication covering technology, development and installation, publishes the Top Solar Contractors List annually. The list includes hundreds of solar contractors and developers in ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MOU) with Solaris Energy (Pvt) Ltd., a leading solar distributor in Sri Lanka, to ...

The Ministry of Energy and Water says that the head of a Bangladeshi company, in a meeting with the head of the ministry's investment attraction department, expressed his interest in ...

To get the year started off right, we're highlighting some of the solar-related concepts that we think are particularly important to understand in 2025. We know that to reach our solar and ...

Wangdue--The first utility-scale solar photo-voltaic power plant in Yongtru, Sephu Gewog, was inaugurated on July 19, marking a significant milestone in the country's renewable energy ...

The Role of I-V Curve Tracing in Quality Inspection Quality inspection in utility-scale solar installations is paramount to ensure optimal performance and longevity of the solar assets. I-V ...

Section 25D--the one that gives homeowners the residential solar tax credit--is now set to expire for systems installed after December 31, 2025. Section 48E, which helped commercial and ...

Afghanistan's Ministry of Energy and Water (MEW) has invited expressions of interest (EOIs) from developers to set up 2 GW of grid-connected solar photovoltaic (PV) projects in the country. ...

Why Understanding Solar Controllers Is Critical For C& I And Utility-Scale Projects Solar controllers play a central role in managing the complexity of commercial and industrial (C& I) and utility-scale solar installations. They act as the system's ...

Afghanistan utility-scale solar
