

Microgrids are a cornerstone of modern energy infrastructure, but the increase in digitalization presents security challenges. Cyberattacks can target various microgrid components and have ...

Bewältigen Sie den gesamten E-2-Visumprozess souverän mit unserem umfassenden Leitfaden, der Sie über die Antragsvorbereitung, die erforderlichen Dokumente, Interviewstrategien und ...

Microgrids are introduced with an emphasis on their key features, operational flexibility, and challenges arising from power-electronics-based generation. The mathematical modeling of ...

The German Embassy in Armenia reports: "From July 1, 2025, we are offering an improved application service to all citizens who need a Schengen visa for travel to Armenia through TLS ...

Redwood is expanding into second-life applications for used and unused batteries. The new subsidiary, Redwood Energy, has been founded to tackle the increasing demand for energy ...

A ten-month program for artists at the cutting edge of creativity and technology. The Creative Innovation Fellowship is powered by Creative Armenia and supported by the Vahab Fattal Fund in partnership with L'OEuvre d'Orient.

The microgrid market is supported by its growing applications in the utility/community segment as microgrids can integrate renewable energy sources, provide grid services, and enhance resilience against grid outages.

The Swiss Federal Institute for Forest, Snow and Landscape Research (WSL), part of the ETH Domain, invites applications for a PostDoc position (80-100%) in the field of regional climate ...

The mobile microgrid energy storage system market is experiencing robust growth, driven by increasing demand for reliable and sustainable off-grid power solutions. Factors such as the ...

Armenia and the UAE have agreed to begin the construction of the industrial-scale photovoltaic solar power plant "Ayg-1" in Armenia in early 2026. The construction of the power ...

The analysis of the VF droop control method for AC microgrid applications indicates a promising future with opportunities for technological advancements, integration of emerging technologies, ...

Long-duration energy storage (LDES) is best-suited for applications in which power is needed for longer time frames and when renewables or distributed energy resources aren't producing power. And these technologies ...

Armenia microgrid applications

Company profile: Invinity Energy Systems is a world-leading vanadium flow battery company. It specializes in utility-scale energy storage for commercial and industrial (C& I), grid-scale and microgrid applications. ...

Team Telecom Armenia is seeking for Billing and credit control specialist who will be responsible for analyzing and financial monitoring of subscribers" requests. Position Title? Billing and credit ...
