

The "Hydrogen Fuel-Cell Electric Vehicles Market Analysis Report" offers a comprehensive and current examination of the market, encompassing crucial metrics, market dynamics, growth ...

However, North America is expected to witness a significant Electric Vehicle Sensor Market Share during the forecast period, owing to the penetration of battery electric vehicles (BEVs) across ...

The forecast period (2025-2033) anticipates significant market expansion across various segments, including battery electric vehicles (BEVs), plug-in hybrid electric vehicles (PHEVs), ...

The UK government has reconfirmed its plans for a ban on pure petrol and diesel vehicle sales by 2030, with hybrid vehicles following in 2035 for cars, leaving only zero emissions vehicles, of ...

The Alternative Fuel Vehicle (AFV) and New Energy Vehicle (NEV) market is experiencing robust growth, driven by increasing environmental concerns, stringent government regulations aimed at reducing carbon emissions, and ...

According to new findings from the International Council on Clean Transportation (ICCT), BEVs sold today produce 73% fewer greenhouse gas emissions over their lifetime than internal ...

Battery Electric Vehicles (BEVs) now dominate powertrain installations, making up nearly 71% of the total demand across major regions. Battery packs account for about 38% of the market ...

The exponential increase in Battery Electric Vehicles (BEVs), which are equipped with large lithium-ion batteries, and Plug-In Hybrid Electric Vehicles (PHEVs) operating on the road will necessitate the implementation of high ...

Fuel cell electric vehicles (FCEVs), which provide zero-emission mobility with greater ranges and shorter refuelling times than battery electric vehicles (BEVs), are made possible by hydrogen ...

Sales of electrified vehicles In the second quarter of 2025, Kia recorded global retail sales of 185,000 electrified vehicles (xEVs), including hybrid (HEV), plug-in hybrid (PHEV), and battery ...

Hyundai Motor Co. and Kia Corp. have surpassed 7 million cumulative sales of eco-friendly vehicles, fueled by the popularity of battery electric vehicles (BEVs) and hybrid electric ...

Sona Comstar is already the leading supplier of differential assemblies for battery electric vehicles (BEVs) in the North American market. The company now aims to expand its footprint across ...

Furthermore, the ongoing competition with battery electric vehicles (BEVs) and their established charging infrastructure necessitates focused efforts on enhancing fuel cell technology"s ...

Electric Vehicle Test Equipment Market Size & Share Analysis - Growth Trends & Forecasts (2025 - 2030)  
The Electric Vehicle Test Equipment Market Report is Segmented by Vehicle Type (Passenger Cars and ...

The meteoric rise of battery electric vehicles (BEVs) and plug-in hybrid vehicles (PHEVs) is a strong contributor to vehicle electrification market growth. Global EV sales crossed 10 million units in 2023, and with charging infrastructure scaling ...
