

The European Commission announced on Wednesday that Chinese-made battery electric vehicles, or BEVs, will soon be subjected to punitive countervailing tariffs, after the conclusion of the bloc's anti-subsidy ...

As the third model in Subaru's global battery electric vehicle (BEV) lineup, the all-new Uncharted is a compact crossover that combines usability and exceptional driveability with powerful ...

Battery electric vehicles (BEVs) remain the primary driver of growth in the European alternative fuels market. BEV sales outpaced plug-in hybrid electric vehicle (PHEV) growth, reflecting ...

Imports of battery electric vehicles (BEVS) fell by more than 50 per cent in value during the 12 months to June 2025, when compared with the year prior, according to Stats NZ. The total value of passenger motor vehicle imports for the past ...

Yet, despite the clear urgency to shift towards Battery Electric Vehicles (BEVs), the current sales figures are troubling. As of mid-2024, BEVs accounted for a mere 12.5% of total vehicle sales. This is a far cry from the ...

New Energy Vehicle is a Chinese term for EVs, which includes battery electric vehicles (BEVs) and plug-in electric vehicles (PHEVs). To be completely precise, it also includes hydrogen vehicles (FCEV), but their sales are nearly non ...

Megapack is a powerful battery that provides energy storage and support, helping to stabilize the grid and prevent outages, information on Tesla's website shows. The company's new plant will be located in the Lin-gang ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

This paper explores the implementation of battery electric vehicles (BEVs) in underground mining operations, focusing on their benefits, challenges, and safety considerations. The study ...

Global BEV market share reached 14.5% in Q1 2025, driven by a sharp decline in combustion engines and a steady rise in electrified alternatives. China leads the BEV market with 57% of ...

Unlike plug-in hybrids, BEVs run exclusively on electricity stored in large-capacity battery packs and emit zero tailpipe emissions, helping countries move closer to net-zero goals. Automakers ...
