

The renovation of Gushine's lithium battery module manufacturing base in Vietnam is set to be fully completed this month. Spanning 22,000 square meters, the modern facility has completed ...

Dublin, July 23, 2025 (GLOBE NEWSWIRE) -- The "Vietnam Antimony Industry Research Report 2025-2034" report has been added to ResearchAndMarkets 's offering. The antimony industry can be divided ...

As part of a roadmap to transition 400,000 vehicles to electric in Ho Chi Minh City, the municipal Institute for Development Studies (HIDS) has proposed building a standardized battery ...

Vietnam's lithium-ion battery industry still faces challenges, including reliance on imported raw materials (lithium, cobalt), limited production technology, and stringent environmental ...

The Vietnam Motorcycle Lithium Battery Market features a mix of established local companies and international corporations, all striving to expand their presence through innovation, ...

Vietnam Solar Gel Battery Market size was valued at USD XX Billion in 2024 and is projected to reach USD XX Billion by 2033, growing at a CAGR of XX% from 2026 to 2033. What are the ...

Hai said EV batteries contain valuable metals like nickel, cobalt, and manganese, with current technologies able to recover 90-95% of these materials. He noted that a battery plant in Ha ...

Ho Chi Minh City aims to build an electric vehicle battery recycling center with a capacity of about 3,000 tons/year, capable of recovering up to 95% of precious metals in used batteries.

The development of the Vietnam Lithium Battery Ultrasonic Welding Machine Market is heavily influenced by technological innovations, including the development of more efficient and ...

NREL's electrochemical storage research ranges from materials discovery and development to advanced electrode design, cell evaluation, system design and development, engendering analysis, and lifetime analysis of ...

The global antimony market is rapidly growing due to its increasing use in flame retardants and lead-acid batteries. Vietnam, a key antimony ore producer, is actively expanding its industry to ...

To overcome these hurdles, Vietnam needs to invest significantly in research and development (R& D) and international cooperation for technology transfer and the establishment of a ...

Battery research and development hanoi

The collaboration between local research institutes and global battery component suppliers is driving the development of more effective electrolyte solutions tailored for tropical climates--an ...

Objectives To strengthen Vietnam's capacity for trauma and injury research by addressing the shortage of trained personnel and enhancing intersectoral collaboration. This paper evaluates ...

Vietnam is poised to emerge as a key player in the global clean energy supply chain, particularly in the production and export of lithium batteries, according to Ee-Hui Tan, managing director of ...
