

In recent years, federated learning (FL), a promising machine learning technique, has drawn increasing attention. Unlike conventional methods that centralize data for model training, FL ...

A eficiência energética do ventilador de fluxo cruzado aumenta a ventilação moderna ao reduzir o consumo de energia, diminuir custos e fornecer fluxo de ar uniforme para espaços comerciais ...

Argentina has taken a decisive step toward modernizing its power infrastructure, drawing international attention with its first large-scale battery energy storage tender. Designed to ...

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical nodes ...

?? ???? GSL Energy ?????? ????? ? ???? ???? ???? -- ??? ???? ???? ? ???? ???? ?????? ?????? ?????? ??????.

The trend is clear: many organizations are prioritizing spaces with certifications like LEED (focused on energy efficiency and building performance) or WELL (centered on people's well ...

Eligible BESS for the tender must be new and must supply power for at least four consecutive hours per full discharge cycle, implying a maximum capacity. The goal of the initiative is to ...

Energy-efficient solenoid valve designs: Innovations in solenoid valve design focus on improving energy efficiency. This includes the development of low-power consumption valves, optimized ...

Acer, best known in India for its laptops, has been quietly expanding into consumer durables through a licensing agreement with Bengaluru-based Indkal Technologies--rolling out TVs, ...

Contents Movable micromirrors: German start-up rethinks AR displays High energy efficiency with an expandable field of vision From proof of concept to product First goal: AI glasses with a ...

Tiny Houses - compact homes that prioritize efficiency and sustainability - are gaining ground as an innovative housing solution in Argentina. Ranging from 20 to 60 m², they are presented as ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

Energy efficiency argentina

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado ...

This efficiency is vital as the country works to transition away from fossil fuels and reduce its carbon footprint. Argentina solar capacity fuels path to sustainable energy Argentina's ...

Homebuilders have continued to improve the efficiency of their homes, as shown by scores from the Home Energy Rating System Index. TBD contributor Ryan Meres spotlights some new-home construction trends from the latest HERS data.

As the opportunity to build energy storage as a reliable source in grids and to decarbonize becomes critical on a global stage, the oversubscribed tender launched by Argentina demonstrates the demand for scalable and bankable ...

Argentina aims to boost production to 1 million bpd by 2030, capitalizing on rising global demand for liquefied natural gas and crude oil. Technological advancements and economies of scale ...
