

Austria's commitment to the EU's green transition goals encourages the exploration of new renewable energy technologies and the improvement of energy efficiency measures. This forward-thinking approach positions Austria ...

"Efficiency plays a decisive role in all areas of production engineering," says Prof. Fazel Ansari, Head of the Production and Maintenance Management Research Division at TU Wien. "Of ...

Results based finance Energy Compacts Launched by UN-Energy (United Nations mechanism for inter-agency collaboration in the field of energy) at the 2021 High-Level Dialogue on Energy - Energy Compacts are voluntary, ...

Homebuilders have continued to improve the efficiency of their homes, as shown by scores from the Home Energy Rating System Index. TBD contributor Ryan Meres spotlights some new-home construction trends from the latest HERS data.

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

Your Windows Aren't Energy-Efficient If your home is hot in the summer, and your air conditioner and ducts are in good condition, it's possible that your windows aren't energy-efficient enough ...

VIENNA, 7 July 2025 - During the Global Green Industrialization Dialogue (GGID), the Least Developed Countries (LDC) Group on Climate Change (The LDC Group), the LDC Renewable ...

The debate surrounding the potential closure of Wien Energie's power plants is reaching a fever pitch in Vienna. Concerns over energy security, rising electricity prices, and the city's ...

Energy Service Companies (ESCOs) deliver energy efficiency projects that are financed based on energy savings. ESCOs act as project developers for a comprehensive range of energy conservation measures ...

The market demand is also being fueled by the need for process intensification and cost reduction in manufacturing. Energy-efficient carbonyl chemistry offers the potential for improved reaction ...

The global transition to clean energy necessitates integrated solutions that ensure both environmental sustainability and energy security. This paper proposes a scenario-based modeling framework for urban hybrid energy systems ...

Energy efficiency vienna

The FE, depicted as blue circles on the right y-axis, stayed above 95%, indicating efficient energy conversion in NO₃-N reduction. The combination of stable current density and high FE ...

Vienna, a city of imperial charm and modern innovation, balances tradition with sustainable development. Its historic architecture coexists with modern green buildings designed for ...
