On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

After providing a brief overview of the governance of geothermal energy utilization in Iceland, as well of past and present controversies, we apply Rowe and Frewer's (2005) typology of public ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Bihar Green Energy Policy: The Bihar government has signed four significant MoUs worth INR5,337 crore to develop renewable energy projects totaling 2,357MW, promoting clean energy and ...

To bridge this gap, this study used a single Nordic survey that allowed for the calculation of consumption-based energy footprints alongside well-being measures, focusing on Icelandic...

In the intersecting field of energy consumption and human well-being, many macro-level studies link national energy use with well-being. These studies often rely on aggregate data, however, ...

Iceland, with its abundant geothermal and hydroelectric power, has already become a popular location. Other regions with significant renewable energy potential, such as the American ...

In June 2025, Iceland achieved its first-ever full calendar month powered entirely by renewables generating 100% of its electricity from geothermal and hydropower, with an impressive 90% of ...

Iceland's unique geology has made it a global leader in geothermal energy, with more than 85% of its total energy coming from renewables, predominantly geothermal and hydropower. The 2024 EPI places Iceland in fourth place, ...

India-UK Vision 2035: Nations to Deepen Collaboration on Energy Storage, Grid Transformation Under the India-UK Vision 2035, the two countries aim to drive ambitious energy security and ...

Carbfix, in Iceland, turns CO₂ into stone for storage. Credit: Oksana Bali/Shutterstock. Carbon capture and storage (CCS) is no longer just a future concept but is becoming a practical ...

Renewable energy communities (RECs) are increasingly recognized as pivotal instruments in the global energy transition, offering decentralized, participatory, and sustainable solutions for ...

China's battery-grade lithium carbonate prices rebound to 72,900 yuan/ton amid policy shifts and demand surge. Explore drivers behind the 20% monthly gain and energy storage market impacts.

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

The decree explicitly classifies energy storage facilities and their associated grid connection infrastructure as "public utility" for the first time. This grants them legal support equivalent to ...

Bihar Unveils New Renewable Energy And Pumped Storage Policies, Signs Major MoUs Worth Thousands Of Crores A key highlight of the event was the signing of several strategic MoUs ...

The use of geothermal energy is an important part of everyday life in modern Iceland. Publicly run district heating systems were introduced in the 1930s and currently more than nine out of ten ...

In a landmark move to position Bihar as a green energy leader, the state government formally launched the Bihar Policy od New and Renewable Energy Sources 2025 and Bihar Policy for ...

Hjallar, M R A, Víðisdótir, E D, Gudmestad, O T (2023) Transitioning towards renewable energy and sustainable storage solutions at remote communities in the Arctic, Case study of Flatey, ...

Norwegian utility Statkraft has inaugurated a 47-MW wind farm in the province of Burgos, Spain, and announced plans to develop its first hybrid solar and wind power project in the country, the ...
