

Updates to the 25D residential solar tax credit, which covers solar panels, solar water heaters and related property like home battery storage systems, have significantly shortened the timeline for homeowners to access the credit.

The article focuses on Chile's expansion of renewable energy capacity, including solar power, wind power, hydropower, and battery energy storage systems (BESS), directly relating to SDG ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

Currently, Chile's energy mix consists of solar power, wind power, and hydropower, each contributing over 20% to the annual generation. According to Ember, an energy think tank, ...

Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS). The country as ...

OLADE's technical note 10, entitled "Energy Storage in Latin America and the Caribbean - Current Status, Challenges and Strategic Recommendations" reports 2.5 GW of installed capacity in the region. Energy storage installations are ...

Spanish renewables company Zelestra on Monday said it has achieved financial closing on its Aurora solar-plus-storage project in northern Chile after securing USD 282 million (EUR ...

It also provided services to local governments in policy revision and industry layout planning; released multiple research outcomes such as the "2025 Energy Storage Industry White Paper"; established monthly and quarterly data ...

Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage technologies. Supporting the equitable scale-up of those technologies, and the development of applications ...

AustriaEnergy Chile Nueve has filed the Environmental Impact Study (EIA) for its Sol de Algarrobal project - a large-scale hybrid energy development combining 390.7 MW of solar PV ...

Chile is quickly shifting to construct extra energy technology capability, with a lot of that effort centered on renewable power sources and battery power storage techniques (BESS). The ...

Energy storage policy updates chile

With abundant sunshine, coastline, and other natural resources, Chile has emerged as a renewable energy leader. In just a decade, it went from importing fossil fuels to generate 63 percent of its energy in 2013 to producing 68 ...
