

In many ways, the Philippines offers a compelling case for regional and global energy investors. It's neither Southeast Asia's biggest emitter nor largest fossil fuel producer, but its strong ...

Bluesun provides innovative, flexible energy storage solutions tailored to the renewable sector. Our BESS containers deliver reliable, scalable power storage, meeting diverse energy needs with sustainable, high ...

During energy storage, external electrical energy propels the flywheel rotor to spin faster, thereby storing energy as kinetic energy. Hydrogen China's largest offshore photovoltaic-hydrogen-storage project in Rudong also ...

Aboitiz Power Corporation is set to develop a 30-megawatt hybrid battery energy storage system (BESS) within the Mactan Economic Zone, located in Cebu, Philstar Global reports. Scheduled ...

CEBU, Philippines -- Cebu's energy sector received a significant push following the launch of Aboitiz Power's P1.2 billion, 30-megawatt hybrid Battery Energy Storage System (BESS) at the ...

The International Conference on Green Hydrogen and Energy Technologies (GHET-2026) aims to bring together researchers, industry experts, policymakers, and academicians to explore ...

Battery storage isn't just an add-on--it can transform your solar system into a more secure, self-reliant, and environmentally friendly setup. In a country like the Philippines where blackouts are common and energy costs continue to rise, ...

The East Asia Utilities Corporation (EAUC) facility at the Mactan Economic Zone in Lapu-Lapu City, Cebu. This site is set to host a hybrid Battery Energy Storage System (BESS), poised to ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

Energy Technology provides a forum for researchers and engineers from all relevant disciplines concerned with the generation, conversion, storage, and distribution of energy. This ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...
