

The global turret mooring systems market is experiencing robust growth, driven by the increasing demand for floating production storage and offloading (FPSO) units and floating liquefied ...

Decade Energy and Sarrion Global Solutions have signed a Letter of Intent (LOI) to study the deployment of Battery Energy Storage Systems (BESS) across nine of Sarrion's key logistics ...

Firstly, the burgeoning industrial gas sector requires efficient and safe storage solutions, boosting demand for low-pressure tanks. Secondly, the growing emphasis on environmental ...

The lithium metal market size was valued at USD 15.3 billion in 2024 and is projected to reach USD 79.3 billion by the end of 2034, growing at a CAGR of 18 % during the forecast period ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Electrochemical energy storage has the characteristics of basically unaffected by the natural environment, large charge and discharge power, and high system efficiency. Under ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

We are at the forefront of research and development, pioneering solutions that bridge the gap between green energy and cutting-edge digital processes. With a shared commitment to a more sustainable future, we ...

Contribute to the development of new materials for energy storage applications within an interdisciplinary research environment. Participate in the synthesis, characterization, and investigation of physical and chemical properties of ...

Two projects led by the University of Oxford have received a major funding boost from the Faraday Institution, the UK's flagship institute for electrochemical energy storage research. The funding is part of a £19 million ...
