What are the best solar batteries for winter?

Although most batteries will struggle to charge to full capacity using solar power in the winter, the type of battery will make a difference. You s...

What is the lifespan of a solar battery?

A solar battery will last on average around 12 years, meaning you'll typically need to purchase two within the lifespan of your solar panel system....

Do solar batteries go bad if unused?

Leaving your battery without charge for a long time will start to affect its ability to keep charge. It'll eventually be unable to hold any charge...

What reduces a solar battery's life?

A few factors can reduce a solar battery's life, including where you store it, the temperatures it's exposed to, and how you use it. Solar batterie...

How many solar batteries are needed to power a house in the UK?

Most houses in the UK will only need one solar battery, but the storage capacity of the battery they need will depend on the size of the house. A t...

Early fire prevention methods While prevention is always the first step in fire safety, no electrical system is entirely risk-free. Regular electrical inspections, safe installation practices, and the ...

Here's why: Complete energy system: Seamless integration between solar panels, home battery, and EV charger optimises self-consumption of renewable energy. Smart load balancing: Our ...

GivEnergy EMS Energy Management System. This is an addon box essential if running 2 or more AC coupled inverters. This will work with your existing Givenergy AC3 coupled inverters to provide balancing and avoid cross ...

Leading energy storage manufacturer, GivEnergy, has acquired energy aggregator Orange Power. The acquisition marks a significant step in GivEnergy's grid service capabilities - enabling commercial battery owners to ...

Locking relates to a new-ish feature available in the API - GivEnergy API Documentation (v1.40.0) It allows 3rd parties to stop owners changing settings. Cant really think of a reason this would ...

Labelled as the "Powerwall Killer", the new Givenergy All In One Battery is said to be the main competitor to

Givenergy system

the Tesla Powerwall 2. Matched like for like in capacity, both the Givenergy All In One, and Tesla Powerwall offer ...

Have seen daily alerts around the dongle firmware not updating (Automated Maintenance within the inverter logs) on for the past few weeks. Inverter would then show it was in an errored ...

I am interested in installing a solar panel array and battery to supplement my already existing local energy generator (also solar) which also has an inverter of its own. If this secondary system ...

National Grid Electricity Distribution (NGED) has energised the UK's most powerful AI supercomputer, completing a new 5 MW connection to Bristol's distribution network in just three weeks. The Isambard-AI system, which has ...

Meanwhile, GivEnergy specialises in battery energy storage systems (BESS) - with a particular focus on turning dumb assets into a smart, interconnected grid. So, the acquisition represents a key opportunity to drive ...
