

The Zero Energy Cooling Chamber (ZECC) empowers women by reducing their labor burden and increasing their income from agriculture. It is climate-friendly, operating without electricity and minimizing carbon emissions.

The Asia Pacific gravity energy storage facility market is poised for substantial growth, driven by increasing demand for clean, sustainable, and long-duration energy storage solutions. This ...

A chain-rail based slope gravity energy storage system (SGESS) has significant advantages in mountainous and hilly regions due to the merit of highly efficient and reliable operation ...

Nigeria and Equatorial Guinea have signed an agreement to advance the Gulf of Guinea Gas Pipeline project. The project aims to facilitate cross-border natural gas transportation and ...

Se encuentra de visita oficial en Malabo, desde la tarde de este jueves, 24 de julio, el Presidente de la República de Guinea Bissau, S.E. Umaro Sissoco Embaló. A su llegada al Aeropuerto Internacional de Malabo, el ...

Frederic Phipps, President: Equatorial Guinea at global exploration and production company ConocoPhillips, has joined the African Energy Week (AEW): Invest in African Energies ...

The World Bank issued today the 2025 Equatorial Guinea Economic Update which analyzes the country's recent economic developments and outlook and highlights the importance of a comprehensive accounting of wealth and the ...

SBM Offshore will exit Equatorial Guinea after divesting its stake in FPSO Aseng to state-owned GEPetrol, marking a shift towards African energy sovereignty amid global transition pressures.

* The company has strengthened its global portfolio with the acquisition of Marathon Oil in 2024, positioning it as a key player in Equatorial Guinea's LNG market CAPE TOWN, South Africa -- ...

Solid gravity energy storage is emerging as a promising solution due to its scalability, long lifespan, and potential for large-capacity energy storage. When deployed in mountainous ...

Scientists in China have simulated an advanced adiabatic compressed air energy storage, to which they added an elastic airbag with a heavy load situated above it. The energy, exergy, and economic analysis of the system showed that, due to ...
