

Myanmar Strives to Promote Electric Vehicle Industry On 31 March 2025, Myanmar's Ministry of Planning and Finance issued Notification 27/2025 to promote the electric vehicle (EV) industry ...

This lineup will include six battery electric vehicles (BEVs), two plug-in hybrid electric vehicles (PHEVs), two range-extended electric vehicles (REEVs), and one internal combustion engine ...

Guidance for car manufacturers on how to apply for their vehicles to be eligible for the Electric Car Grant. The guidance explains: how the scheme works vehicle eligibility the application process ...

Methanol can be reformed to produce hydrogen for various applications, including fuel cells, which diverges from traditional internal combustion engine vehicles (ICEVs) by eliminating the need ...

In the first half of the year, more than 5.9 million battery electric vehicles (BEVs) were registered worldwide, a 37% increase compared to the same period in 2024. For comparison, full-year sales in 2024 had only grown by around 14%. China ...

The forecast period (2025-2033) anticipates significant market expansion across various segments, including battery electric vehicles (BEVs), plug-in hybrid electric vehicles (PHEVs), ...

Market segmentation reveals a strong preference for Battery Electric Vehicles (BEVs) over Plug-in Hybrid Electric Vehicles (PHEVs) and Fuel Cell Electric Vehicles (FCEVs), with BEVs capturing the largest market share.

Therefore, this study conducts a comparative life cycle assessment of battery electric vehicles (BEV) in the top 10 electric vehicle-selling developing countries for current (2023) and future ...

Based on Linglong Tire's 2024 sales figures, consulting firm Frost & Sullivan has named the tyre maker the world's largest supplier of original equipment tyres for New Energy Vehicles (NEVs), ...

Qi notes that battery electric vehicles (BEVs) will represent 70% of production, with the rest being plug-in hybrid electric vehicles (PHEVs). Qi praises Thailand's potential in the EV sector, encouraged by government incentives ...

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

Laos battery electric vehicles bevs

Kasikorn Research Center is of the view that the cumulative vehicle ownership of plug-in hybrid electric vehicles (PHEVs) and battery electric vehicles (BEVs) could reach ...

Unlike plug-in hybrids, BEVs run exclusively on electricity stored in large-capacity battery packs and emit zero tailpipe emissions, helping countries move closer to net-zero goals. Automakers ...

The European Commission announced on Wednesday that Chinese-made battery electric vehicles, or BEVs, will soon be subjected to punitive countervailing tariffs, after the conclusion of the bloc's anti-subsidy ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

Although the overall automotive market in Thailand is facing numerous challenges, particularly more stringent lending criteria, sales of battery electric vehicles (BEVs) are set to increase substantially in 2023 and 2024, led ...

According to the SMMT, 24.8% of new cars registered in the UK in June 2025 were pure battery-electric vehicles (BEVs) whilst just 5.6% were diesels. Plug-in hybrids accounted for 11.2%.

Battery Electric Vehicle (BEV) A BEV runs entirely on electricity. Unlike traditional cars, BEVs don't have a gasoline engine; they get all their power from a rechargeable battery. This means ...

Based on the propulsion type segment, the market is segmented into Battery Electric Vehicles (BEVs) and Hybrid Electric Vehicles (HEVs). The BEV segment is expected to hold a notable ...

Laos battery electric vehicles bevs
