GM said it will begin converting battery cell lines at the \$2.3 billion Ultium Cells LLC plant later this year, with commercial LFP cell production expected by late 2027. The plant currently ...

LG Chem, a South Korean chemical company, will further expand battery material production capacity in China and strengthen collaboration with Chinese companies as it sees enormous growth opportunities from China's ...

The company has established a plant by teaming up with China's battery material producer Zhejiang Huayou Cobalt Co Ltd to manufacture precursors, a key battery component used in electric vehicles, in Quzhou, ...

Tesla Energy division--home to Powerwall, Powerpack, and Megapack systems--has steadily grown from a niche offering into a core pillar of the company's long-term strategy. As utilities ...

Energy storage capacity, measured in kilowatt-hours (kWh) -- more energy storage, higher cost. Most households will want 10kWh or more. The brand reputation -- because not all batteries are created equal. On top of the ...

First Phosphate and LG Energy Solution began to manufacture lithium iron phosphate (LFP) battery cells in North America. According to the Foreign Entity of Concern (FEOC) regulations, ...

Project owners were primarily from high energy-consuming industries such as metallurgy, chemicals, and machinery manufacturing. Large-capacity C& I storage is playing an increasingly important role in helping high ...

LG Energy Solution's new lithium-iron phosphate (LFP) battery plant in Holland, Michigan, marks a significant step for clean energy in the US. Opened in early May 2025, this facility shifts...

The stationary energy storage market is experiencing robust growth, driven by the increasing need for grid stabilization, renewable energy integration, and backup power solutions. The ...

First Phosphate says its batteries are aimed at the energy storage, data centre, robotics, mobility, and defence sectors. A recent report from the Congressional Research Service (CRS) notes ...

LG Energy Solution has unveiled a new facility in Holland, Michigan to produce LFP batteries at scale. The company established its first gigawatt-size battery plant in Holland in 2012. The ...
