

Microservices Design Patterns explains how to build and manage microservices, which are small, independent services that work together in an application. It introduces different design patterns, or best practices, that help ...

In a recent interview with The Tech Capital at Digital Garden 25, Pdraig MacColgain, vice president and head of APAC at Colt DCS, shared insights into Japan's burgeoning data centre ...

APAC data centre platform Princeton Digital Group (PDG) has signed a definitive agreement with New York-based alternative investment firm Stonepeak for a US\$1.3 billion preferred equity ...

To achieve efficient management of internal resources in microgrids and flexibility and stability of energy supply, a photovoltaic storage charging integrated microgrid system and energy ...

Le 15 juillet 2025, Masen a eu le plaisir d'organiser, sur sa plateforme R& D du complexe Noor Ouarzazate, l'atelier K-EMS intitulé ; : ; Microgrid Energy Management Systems - From ...

The operated has raised US\$235 million through an asset-backed securitisation supported by its fully leased Phoenix facility, with proceeds aimed at scaling its data centre footprint across ...

xAI, an AI startup owned by Elon Musk, is reportedly in talks with financier Valor Equity Partners to secure up to US\$12 billion in funding for its expansion, according to the Wall Street Journal on ...

Power Available Now: Microgrid Design Integrating Behind the Meter, Grid Connection and Wind for Resilient AI Infrastructure with Substation and Switching Station on Site for Data Centers or ...

This study aims to design and research the integrated microgrid of photovoltaic ES and charging, with the aim of achieving efficient management of microgrid resources through reasonable ...

Macquarie Asset Management has closed its Macquarie European Infrastructure Debt Fund (MEID) with EUR1.2 billion (US\$1.4 billion) raised. An additional EUR2.3 billion (US\$2.67 billion) was ...

Off grid investment: New study reveals microgrid efficiency and cost benefits As power challenges impact Europe's AI data centre hotspots, adopting microgrid independent power can be a ...

Microgrids are introduced with an emphasis on their key features, operational flexibility, and challenges arising from power-electronics-based generation. The mathematical modeling of ...

Lithuania microgrid design

- AtkinsRéalis leads SMR development (e.g., Energy Northwest, BWRX-300) and DOE contracts, aligning with accelerated licensing and military microgrid mandates. - The company benefits ...

A turbine at an Ignitis Group onshore wind power plant. Image: Ignitis Group Utility Ignitis Group has taken a final investment decision (FID) on three large-scale battery storage projects in ...

Long-term urban microgrid design: Socio-spatial resilience to promote energy democracy = Langfristiges urbanes Microgrid-Design: Sozialräumliche Resilienz zur Förderung von ...

Optimal sizing of PV and BESS units is a critical aspect of microgrid design, directly impacting system reliability, economic performance, and environmental sustainability [7, 8]. Oversizing ...
