

Solar power is going to play a huge role in the future of the Irish energy industry, with at least 8GW of capacity to be delivered by 2030 according to current targets. This will come through multiple pipelines, from small scale ...

Enbridge has made a final investment decision on the Clear Fork solar project in Texas, a 600-megawatt facility whose entire output will be acquired by Meta Platforms Inc. under a long ...

Good news comes from utility-scale solar. It is expected to continue growing and amount to around half of all new capacity additions. The authors of the outlook attributed the confidence ...

DLA Piper advised Eletricidade de Timor-Leste on its first utility-scale solar PV and battery storage project with a 100MW capacity, marking a major milestone in the country's renewable ...

Explore how Avaada is shaping India's clean energy future with utility-scale Battery Energy Storage Systems (BESS), including a landmark 2.1 GW project to support a sustainable and ...

Utility-scale solar farms are vast installations designed to generate solar power at a massive scale, typically selling the electricity produced to the grid. These facilities differ significantly ...

Why Understanding Solar Controllers Is Critical For C& I And Utility-Scale Projects Solar controllers play a central role in managing the complexity of commercial and industrial (C& I) and utility-scale solar installations. They act as the system's ...

The Role of I-V Curve Tracing in Quality Inspection Quality inspection in utility-scale solar installations is paramount to ensure optimal performance and longevity of the solar assets. I-V ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global average total installed cost of utility-scale solar projects ...

Scientists from Slovenia's University of Ljubljana and Spain's University of Jaen have developed a novel empirical model for calculating the backside irradiance of bifacial PV systems. "The core...

Utility scale solar submissions increase Submissions for utility scale solar farms has been at heights not seen before. With over 7GWp submitted to date this year and over 5GW submitted ...

Global average solar LCOE stood at \$0.043/kWh in 2024, says IRENA The International Renewable Energy

Ljubljana utility-scale solar

Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar ...

Focusing on key considerations for large-scale energy projects enables everyone involved to be prepared for any potential obstacles that may arise. What Are Large-Scale Energy Projects? Large-scale energy projects are initiatives ...

We know that to reach our solar and renewable energy goals, utility-scale, commercial, and C& I projects will be key. But what do each of these categories mean, and how are they different? ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MoU) with Solaris Energy Ltd., a leading solar distributor in Sri Lanka, to ...

Utility-scale solar projects are continuing to advance across the United States. Solar represented 77.7% of new capacity added to the U.S. grid in 2025 through April, according to the Federal Energy Regulatory Commission, and continues ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MOU) with Solaris Energy (Pvt) Ltd., a leading solar distributor in Sri Lanka, to ...

About SunChase Power Since its founding in 2015, SunChase Power developed a utility scale renewable energy portfolio with more than 11.5 GW of solar and 3 GW of battery storage projects located in MISO South, ...

Utility-scale solar, by contrast, is expected to continue growing this year. In 2025, the segment will likely contribute to around half of all new capacity additions. Part of its resilience is based on ...

What utility-scale solar project developers should know about One Big Beautiful Bill Developers will need to navigate expiring tax credits, stricter "safe harbor" rules and foreign content ...

TotalEnergies Starts Up its Largest Utility-Scale Solar Farms with Batteries in the United States Houston/Paris, September 30th 2024 - TotalEnergies has started commercial operations of Danish Fields and ...

The Brechin Castle Solar Ltd, a joint venture partnership between bp (35 per cent), Shell (35 per cent) and NGC (30 per cent), has achieved first electrons from the nation's first utility-scale ...

Ljubljana utility-scale solar
