

DuBOIS -- Penn State DuBois and Metaltech Inc., a local leader in powdered metal manufacturing, are teaming up on a new research initiative focused on next-generation energy ...

Moment Energy announced that its Metro Vancouver, BC manufacturing hub is now in full-scale production, delivering its flagship battery energy storage systems (BESS) to serve a growing ...

Turkish renewable energy company AIC is developing a 5 MW solar power plant in Tanji, The Gambia. Additionally, AIC is currently financing a 540 kW solar project and has completed installations on an 80 kW system in Mandinary. ...

Speaking to local press, he said the plant "positions Portugal as a serious player in Europe's energy and manufacturing sectors." He also stressed how job creation, tax revenue, and clean-tech output are too important to ignore, ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...

As an innovative benchmark project integrating "commercial & industrial energy storage + intelligent manufacturing," TCL Photovoltaic Technology adopts advanced battery technology ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Energy storage technology has advanced by leaps and bounds in recent years, offering a range of benefits for manufacturing facilities. From reducing energy costs and improving grid stability to ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

AIC Group's \$80 Million Solar Energy Investment in The Gambia: A Significant Leap Forward AIC Group, a leading Turkish company, has announced an \$80 million investment in solar energy ...

Google enters long-duration energy storage (LDES) with a global commercial partnership and investment in
