

Maputo increased renewable energy penetration

The Maputo Corridor is bound to develop even more as the Maputo harbour improves its handling and scheduling capacity. In the event that a second rail line to Maputo to complement the current rail link is developed, the ...

Abstract While lithium-ion batteries have their difficulties, the demand to improve beyond-lithium batteries goes beyond the issues of sustainability and safety. With the pressure for renewable ...

The energy mix varies between states and territories. Coal provided more than one-third of primary energy used in New South Wales, Victoria and Queensland in 2022-23, while natural gas provided more than half of primary ...

The Port of Maputo is rapidly establishing itself as a leading logistics hub for project cargo in southern Africa, following major investments in its infrastructure and operational capabilities. ...

By 2035, system costs could rise in both geographies, renewable energy adoption may stall in the United States, and solar and wind deployment could soften in the EU. The analysis also suggests that higher tariffs would increase the share of ...

Spotlight | Mozambique TotalEnergies and ExxonMobil must go through Chapo's gatekeepers Since the new Mozambican head of state came to power five months ago, oil giants have grown accustomed to working with two close presidential ...
