Salem, OR -- Last Thursday, Governor Tina Kotek signed House Bills 2065 and 2066 into law, two pieces of landmark legislation which aim to increase and expedite access to microgrids across urban, suburban, and rural Oregon ...

This enhanced value makes microgrid investments more attractive to stakeholders, as the combined benefits of reliability and grid services can justify the initial capital expenditure. As ...

Oman, having high solar irradiance, is trying to improve the penetration of solar electricity to replace natural gas from the grid or diesel generators, especially. This study models various ...

Luxembourg-based SES has completed its US\$3.1 billion (EUR2.8 billion) acquisition of US satellite operator Intelsat, cementing its position as one of the largest multi-orbit satellite providers ...

Solar-powered microgrids offer a range of benefits and challenges, some of which are discussed below:
Sustainability: One of the main benefits of solar-powered microgrids is that they rely on renewable energy, making them ...

The operator has raised US\$235 million through an asset-backed securitisation supported by its fully leased Phoenix facility, with proceeds aimed at scaling its data centre footprint across ...

xAI, an AI startup owned by Elon Musk, is reportedly in talks with financier Valor Equity Partners to secure up to US\$12 billion in funding for its expansion, according to the Wall Street Journal on ...

This study presents an optimization approach for sizing photovoltaic (PV) and battery energy storage systems (BESSs) within a DC microgrid, aiming to enhance cost-effectiveness, energy ...

In a recent interview with The Tech Capital at Digital Garden 25, Pdraig MacColgain, vice president and head of APAC at Colt DCS, shared insights into Japan's burgeoning data centre ...

Power Conversion System (PCS) serves as the "engine" of the energy transition, offering real/reactive power regulation, grid-connected/off-grid switching, and energy storage integration.

Macquarie Asset Management has closed its Macquarie European Infrastructure Debt Fund (MEID) with EUR1.2 billion (US\$1.4 billion) raised. An additional EUR2.3 billion (US\$2.67 billion) was ...

Malaysia will introduce a data centre framework in October aimed at streamlining policies and guiding the development of the sector, according to the country's trade and digital ministries.

Microgrid benefits oman

Hydrom, the architect of Oman's green hydrogen sector, reports progress in localising technology for solar panels and wind turbines. Projects in Al Wusta and Dhofar aim for operations by ...

APAC data centre platform Princeton Digital Group (PDG) has signed a definitive agreement with New York-based alternative investment firm Stonepeak for a US\$1.3 billion preferred equity ...

China has begun building a submerged data centre off the coast of Shanghai, aiming to reduce electricity consumption and environmental impact by using seawater for cooling and offshore ...

Six months after announcing plans to invest US\$500 billion in US AI infrastructure, the Stargate consortium, comprising Oracle, OpenAI, SoftBank, and Mubadala's MGX, has spent only a fraction of its initial pledge, raising ...

Microgrid Solar Systems Are More Than Backup Power: Unlike traditional backup generators, solar microgrids can operate indefinitely during outages and provide continuous economic ...
