

Tesla is exploring co-branding with local food vendors and cultural institutions--e.g., rotisserie chicken stands in Europe and tea bars in Asia--to ensure each hub resonates with its ...

U.S. penetration of microgrids by select state 2020 Published by Statista Research Department, Jul 10, 2025 Texas was the leading state in the U.S. based on microgrid penetration capacity, with ***

Request a Free sample to learn more about this report. Microgrid Market Growth Factors Increasing Demand for Energy Resilience and Reliability to Drive Microgrid Market Growth Microgrids offer enhanced energy resilience ...

One of the bills orders the Oregon Public Utility Commission to create a regulatory framework for private and community-owned microgrids. It also orders regulators to establish rules for buildings to connect to microgrids. Under the measure, ...

In remote, industrial, telecom, and rural applications, diesel-solar hybrid microgrids (integrated systems) are becoming the go-to solution for reliable, cleaner, and cost-effective power. Here ...

The import/export ratio is disturbing in various SAARC grids, and a solution in terms of community microgrids is presented from Pakistan's perspective as a case study. The proposed work gives ...

(Editor's Note: This story originally posted July 2024. With the upcoming July 4 holiday celebrating our U.S. independence, we thought we would repost this to highlight growing American energy independence). Long ...

After a 5-year journey, the European energy initiative TIGON has delivered real-world validation of high-voltage, hybrid microgrids that can slash energy losses, improve resilience, and ...

Solar-powered microgrids have become increasingly popular in recent years as a way to provide reliable and sustainable energy to remote communities and areas without access to a centralized power grid. These ...

Renewable energy communities (RECs) are increasingly recognized as pivotal instruments in the global energy transition, offering decentralized, participatory, and sustainable solutions for ...

With an overwhelming bipartisan majority in both chambers, the Oregon Legislature voted to make the state a leader in energy resilience with a first-in-the-nation strategy to create a ...

Heat networks. EV charging infrastructure. Microgrids. These sectors are at the frontier of the energy transition. They are also at the frontier of valuation risk due to the inherent uncertainties ...
