

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

Brevik CCS will capture around 400,000 tonnes of CO₂ per year, representing 50% of the plant's emissions. The facility is part of the Norwegian government's Longship project, developing ...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

Detailed info and reviews on 32 top Energy & Cleantech companies and startups in Norway in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

The Trudvang carbon capture and storage (CCS) project, operated by Vår Energi in partnership with Storegga and INPEX Idemitsu Norge, has successfully passed its feasibility gate (DG1), ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

The Northern Lights (NL) project is a major initiative for carbon capture and storage in Norway. The aim of the project is to capture CO₂ from industrial sources, transport it to an onshore terminal on the west coast of ...

Regional collaborations for CO₂ storage from countries lacking infrastructure will expand in Norway and the UK CCUS will shift from a "luxury" option to a cost-effective tool for heavy ...

Norwegian energy company Statkraft has posted quarter-on-quarter declines in electricity generation and earnings in the second quarter of this year, as it continues to streamline its operations.

Country: USA | Funding: \$360M Powin Energy is a market leader in the manufacturing and development of energy storage technology used in stationary. Powin buys battery cells and hooks them up with proprietary ...

Norway manufacturing energy storage
