

Redriven wind turbine

The installation of the first 220-metre,recyclable wind turbine in Jilin, China, is a major step towards circular economy in the wind industry.The wind turbine can be recycled thanks to the ...

Malta is progressing with its first offshore wind tender, receiving three initial bids from prospective developers. The wind farm will be located in Malta's Exclusive Economic Zone, beyond its ...

The current research presents an optimal power flow (OPF) solution in an electrical system network with the integration of wind power using enhanced self-adaptive differential evolution ...

By Alex Clerc, Senior Controls Engineer At RES, we are committed to driving innovation in renewable energy, and digital solutions are central to unlocking more energy from existing ...

Data from the Global Wind Energy Council (GWEC) underscores the global significance, showing that over 80 percent of offshore wind resources are located in waters deeper than 60 meters. ...

Harnessing the power of wind has never been more important, and these wind turbines are the cream of the crop for off-grid energy. With their innovative designs and impressive efficiency, they are the perfect choice for ...

New bladeless wind turbine generates clean, quiet, bird-safe power New bladeless wind turbine uses vibration instead of blades, offering quieter, safer, and greener energy for homes and cities.

A wind turbine blends into the rock, symbolizing a slow and continuous transformation wrought by nature, particularly the wind. Inspired by rock formations shaped by atmospheric forces, this ...

In a significant leap for sustainable energy innovation, Swancor New Materials, Goldwind Science & Technology, and Sinoma Wind Blade Co. have successfully delivered and installed the ...

IROQUOIS FALLS - A packed council chamber made one thing clear: many Iroquois Falls residents don't want wind turbines in their backyard. About 30 people turned out to support two residents -- Lisa Mousseau and Cathy ...

In February 2024, Vineyard Wind and Gov. Maura Healey touted 68 megawatts of power flowing onto the grid from five offshore wind turbines. But one of the project's massive wind blades ...
