

Saudi Arabia has signed a raft of contracts for renewable-energy projects totaling 15 gigawatts (GW) - among the world's most keenly priced - accelerating its push under Vision 2030 to cut reliance on oil and become a clean-power ...

The year 2024 was a milestone in the global energy transition. Renewable energy didn't just make gains, it shattered records and established itself as the undisputed economic powerhouse of ...

But for every dollar invested in renewable power, just 60 cents go to grids and storage. That ratio needs to be one- to-one. Third, governments must aim to meet the world's surging energy...

Among the actions that ifo suggests to governments are expanding renewable energy and storage capacities, promoting the deployment of energy-efficient technologies, supporting urban planning for cooler cities, and encouraging ...

India added a record 22 gigawatts (GW) of renewable energy capacity in the first half of 2025, marking a 57 per cent increase from the 14.2 GW installed in the same period last year, ...

Bihar Green Energy Policy: The Bihar government has signed four significant MoUs worth INR5,337 crore to develop renewable energy projects totaling 2,357MW, promoting clean energy and ...

In the future, au Renewable Energy and Winfield also plan to partner on developing grid-scale battery storage facilities. au Renewable Energy, an 80:20 joint venture between au Energy ...

Construction has officially commenced on the Santa Teresa solar and storage facility, a significant renewable energy facility in Do#241;a Ana County, New Mexico. Developed by DESRI (D. E. Shaw ...

This obligation shall be treated as fulfilled only when at least 85% of the total energy stored is procured from Renewable Energy sources on an annual basis. There are several energy storage technologies available, broadly - ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

Thus, this study aims to quantify the energy and the environmental implications of EVs in Palestine in 2030, considering that the current percentage of EVs is almost 0%. In this study, ...
