

RayGen is proposing to build a fully dispatchable renewable energy facility that will use their innovative concentrated solar PV technology known as PV Ultra and combine it with their Thermal Hydro technology to generate ...

New Delhi: A total of nine Battery Energy Storage System (BESS) projects with a cumulative installed capacity of 204.5 MW/505.6 MWh are currently operational in the country, Minister of ...

While China has doubled the share of renewable energy in its energy investment mix -- spending more than 40 percent of its energy transition funds on renewables, or roughly twice the amount allocated to fossil fuels -- ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

Geneva, 1 July 2025: Accelerating renewable energy is vital in building a clean energy future - but it's not the whole story. Without solutions to manage intermittency, the shift to renewable ...

Without solutions to manage intermittency, the shift to renewable energy remains incomplete. That's where Long Duration Energy Storage (LDES) comes in: storage solutions can provide ...

5. Next-Gen Energy Storage: The Heartbeat of Renewables Renewable energy is abundant--but not always reliable. The sun sets. The wind dies. Without effective storage, these fluctuations ...

China's renewable energy storage sector is undergoing a seismic shift, driven by urgent decarbonization targets and the rapid integration of intermittent renewables like wind and solar.

Pilot tests of an aquifer thermal energy storage (ATES) system are underway by Mitsubishi Heavy Industries Thermal Systems and Osaka Metropolitan University in Osaka, Japan. The system ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

Alphabet Inc's (NASDAQ:GOOGL) search engine business Google has struck its first commercial long-duration energy storage (LDES) deal through an equity investment in and a global ...
