Time is running out. The federal solar tax credit--worth an average of \$9,000 in savings--expires completely for systems installed after 2025. With typical solar installations taking two to three months and high demand ...

This placed-in-service deadline would not apply to energy storage technology. Moreover, the OBB-A eliminates credit for leased residential solar water heating and wind energy property (except leased solar electric generating property). ...

Here's where we separate wishful thinking from reality. Residential wind turbines can work, but they're far more finicky than solar panels. Success depends entirely on having the right ...

The federal solar tax credit or "Investment Tax Credit (ITC)" is, in many cases, the most valuable solar and battery incentive available to residential solar owners. Claiming the credit can reduce your federal tax liability by 30% ...

Residential Clean Energy Credit Ending December 31, 2025 The federal solar tax credit is ending sooner than expected. Here's what homeowners must do to qualify before the 2025 deadline.

Congress and President Trump just passed legislation to cut the 30% residential solar tax credit in 2026--nearly a decade ahead of schedule. For homeowners considering solar, act now to lock ...

Accordingly, solar service companies have begun to focus on a rapidly expanding inverter replacement market, repowering solar systems that have long since passed their warranty periods and payback dates.

Section 25D--the one that gives homeowners the residential solar tax credit--is now set to expire for systems installed after December 31, 2025. Section 48E, which helped commercial and ...

The residential solar Investment Tax Credit (ITC), which currently allows homeowners to deduct 30% of their solar installation costs from their federal tax bill, is on the chopping block in ...

What are the challenges with residential solar systems in 2025? Lots of installers wanting to enter the sector often ask me what the challenges are likely to be. This is multifaceted - with angles ...

What the new solar trade case means for US Solar The solar industry has been dealing with trade cases for well over a decade and has always found a way to adapt and grow in the face of the uncertainty and price pressures these cases ...
