

The Bulgarian innovation ministry has launched a 126 million leva (\$75.4 million/64.4 million euro) grant scheme to support micro, small and medium-sized enterprises (SMEs) in improving ...

The innovative Bulgarian project for the production of energy storage batteries BG EXERON X-BESS has been granted strategic status under the European Commission's Net Zero Emission ...

The project establishes battery storage as a central element of Bulgaria's future energy supply and uses state-of-the-art algorithmic trading software and innovative incentive structures to exploit the full potential of ...

Schoenherr has advised Enery Element on the sale of its 50% stake in Dunav Solar Plant, the developer of the Gabare photovoltaic project in northwest Bulgaria, to OMV Petrom, as part of ...

"The 100MW/400MWh standalone battery energy storage system (BESS) project will enhance the resilience of the electricity network by generating electricity and providing additional technical ...

This new facility strengthens Solaris Holding's portfolio, which already includes over 600 MW of installed renewable capacity and more than 2,000 MWh of integrated storage solutions across ...

The Minister of Economy and Industry, Peter Dilov, has received an official invitation to support in person the Bulgarian national team in artificial intelligence at the upcoming Olympiad in Beijing Minister Peter Dilov ...

Background: A special education school located in the Netherlands is dedicated to providing tailored education for young people with behavioral and psychological problems. To align with ...

Share This Schoenherr has advised Enery Element on the sale of its 50% stake in Dunav Solar Plant, the developer of the Gabare photovoltaic project in northwest Bulgaria, to OMV Petrom, ...

With POWEROAD 's tailored energy storage solution, the school not only secured a reliable and resilient power supply but also made significant strides toward its sustainability goals--empowering its students in a greener, safer and more ...

The study highlights the sensitivity of BESS deployment to both tariff levels and technological learning rates, with higher tariffs exacerbating declining adoption. Despite these disruptions, global lithium-ion battery price trajectories ...

Underutilized Solar Energy: The school had already installed a solar system for sustainability, however,

School energy storage bulgaria

without an energy storage solution, excess solar energy couldn't be efficiently stored ...

A headteacher at a special school has raised concerns over the impact a controversial battery storage farm could have on the school and the surrounding areas. Root-Power (North) wanted ...

However, investor interest remains high, especially in the southern and northwestern regions. Projects like the 238-megawatt Tenevo hybrid solar plant in Yambol, which plans to integrate a solar park, wind turbines, and ...
