

The energy transition and its demand for crucial materials like lithium, which is a key component of electric vehicle batteries in particular, means that the potential benefits of the mine have increased. Serbia's ruling party, ...

President of the Serbian Chamber of Commerce, Marko ?ade?, met top Chinese trade officials and announced high-level talks with tech giants like Alibaba and Nvidia, highlighting Serbia's ...

GM's big bet on affordable EV batteries is here General Motors is significantly reducing electric vehicle prices by adopting lithium iron phosphate (LFP) battery technology, which has been ...

Solid state batteries (SSBs) have long been anticipated as a significant breakthrough in battery technology. Recent advancements from companies like QuantumScape and Solid Power indicate that ...

To achieve better and longer lasting batteries for electric vehicles, EU-funded researchers are developing technology that enables batteries to quickly detect damage and repair themselves.

With a global turn to greener technologies in efforts to tame climate change, electric vehicles (EVs) are high in demand, even despite their recent slowdown. Concurrently, there is soaring ...

Europe requires vast amounts of critical raw materials to fuel their green transition. The European Union has invested in several strategic projects to boost their domestic CRM supply while reducing dependencies on importing from ...

China has imposed export restrictions on eight key EV battery technologies as the country seeks to consolidate its dominance in the global EV race. The move makes it harder for Chinese ...

Both EU and Serbian officials emphasize the goal of keeping lithium processing within Serbia to build a full industry--from raw material processing to battery components and electric vehicle ...

Holosun has expanded its acclaimed AEMS (Advanced Enclosed Micro Sight) lineup with two innovative optics: the AEMS PRO X2 and AEMS CORE X2. These cutting-edge red dot sights represent the latest evolution in compact ...

Rivian and Volkswagen Group Technologies is a joint venture between two industry leaders with a clear vision for automotive's next chapter. From operating systems to zonal controllers to cloud ...

) Minister of Foreign Affairs Marko ?uri? spoke today with Director of the Directorate for Continental Europe

Serbia battery technologies

at the Ministry for Europe and Foreign Affairs of the Republic of France ...

Octillion Power Systems, a California-based supplier of high-density lithium-ion battery packs for electric vehicles of all types, has expanded its existing partnership with Vision Marine ...

The main players who are establishing the foundation for Serbia's storage infrastructure are highlighted in this article, which ranks the top 10 energy storage companies in Serbia. In order ...

Apart from proposing to tighten export restrictions on battery cathode material preparative technology, China plans to enhance export curbs on specific technologies and processes used for extracting metallic gallium and lithium, ...
