

La multinacional Cox, utility global ha sido seleccionada por el Gobierno de Ecuador como socio tecnol&#243;gico estrat&#233;gico para el desarrollo de ocho proyectos concesionales en el pa&#237;s andino. ...

Ecuador ha logrado captar m&#225;s de 1.000 millones de d&#243;lares en inversi&#243;n extranjera directa para el desarrollo de proyectos energ&#233;ticos sostenibles, principalmente en el sector de energ&#237;a ...

La compa&#241;&#237;a acaba de firmar con el Gobierno de Ecuador la concesi&#243;n para construir ocho proyectos de energ&#237;a solar fotovoltaica, adem&#225;s de un sistema de almacenamiento y una ...

The Future is Bright with Solar Energy This homeowner's experience serves as a beacon for those considering making the switch from conventional energy sources. The combination of significant savings and environmental benefits ...

Solar power has reached critical mass, according to author and environmental activist Bill McKibben, and it's already transforming the way humans consume energy. Last year, he says, ...

In line with its 40th anniversary, SM Supermalls has unveiled the largest rooftop solar photovoltaic (PV) system on a commercial building in the country at SM City Fairview, reinforcing its ...

The development of a significant solar farm in Herefordshire takes a pivotal step forward as plans for the Sinton's End Solar Farm gain momentum. This ambitious project, designed to cover 40 ...

Solar Photovoltaic (PV) is a technology that converts sunlight into electricity. The use of solar energy can lower energy bills for Islanders, working hand-in-hand with other efficiency upgrades. The solar program makes solar ...

Still, for many drivers, the move to electric raises important questions--from cost savings and environmental impact to installation and energy sources. In this article, we tackle the six key questions Irish motorists are asking in 2025.

This financial incentive encourages residents to invest in renewable energy while benefitting from lower electricity costs. Energy Production and Environmental Impact The solar plant boasts an ...

Spanish utility Cox Group has secured concessions in Ecuador to develop eight renewable energy and infrastructure projects totaling over US\$700 million in investment. The projects include ...

Spanish utility Cox Group (BME:COXG) has secured concessions in Ecuador to develop eight renewable energy and electric infrastructure projects representing an investment of more than ...

Environmental Benefits: While not a direct economic savings, the environmental advantages of solar energy can contribute to long-term economic benefits. Reduced carbon emissions from ...

Ecuador is rapidly emerging as a promising market for solar battery storage, driven by growing demand for clean, stable, and off-grid energy solutions. With high solar irradiance and rising ...

Panama solar park as a model for future projects The solar park in Veraguas is not only significant for its size and capacity but also for its role as a model for future renewable energy projects in ...

As part of its efforts to bring down the cost of electricity supply and make electricity bills more affordable for Europeans, the Commission has today provided new guidance to EU countries.

The government has taken a significant step by increasing the maximum price it is willing to guarantee for electricity generated from new wind farms, aligning with its ambitious goal to ...

The Trump administration is canceling a nearly \$5 billion dollar loan guarantee for a power line that would connect wind and solar power to the grid, marking the latest in a string of attacks on ...

UN says booming solar, wind and other green energy hits global tipping point for even lower costs The United Nations reports a global shift toward renewable energy, calling it a "positive tipping ...

Ecuador se proyecta as&#237; como un l&#237;der regional en energ&#237;a solar y sostenibilidad energ&#237;tica, atrayendo capitales que impulsan el desarrollo y protegen el entorno. Lea tambi&#237;n: Ecuador ...

Solar is the fastest-growing energy source in the EU, yet its integration in buildings remains underused. The Energy Performance of Buildings Directive (EPBD) sets a clear path, requiring ...

It has been two years since the Law of Ukraine No. 3220-IX "On Green Transformation" came into force. Adopted on June 30, 2023, this legislation marked the end of the fixed "green" tariff ...

Solar energy is radiation from the Sun that is capable of producing heat, causing chemical reactions, or generating electricity. The total amount of solar energy incident on Earth is vastly in excess of the world's energy ...
