

The global charge controller system market is experiencing robust growth, driven by the increasing adoption of renewable energy sources, particularly solar power. The market's expansion is fueled by the need for efficient energy management ...

In June 2025, Iceland achieved its first-ever full calendar month powered entirely by renewables generating 100% of its electricity from geothermal and hydropower, with an impressive 90% of ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Iceland Foods has hit a major milestone in its rooftop solar rollout, completing Phase 1 of its Power Purchase Agreement (PPA) across key distribution centres with partners Ortus Energy ...

Results based finance Energy Compacts Launched by UN-Energy (United Nations mechanism for inter-agency collaboration in the field of energy) at the 2021 High-Level Dialogue on Energy - Energy Compacts are voluntary, ...

Iceland Foods Limited (Iceland) has partnered with renewable technology provider, Shawton Energy, to roll out rooftop solar systems across multiple sites within its retail portfolio. The ...

Renewable energy, usable energy derived from replenishable sources such as the Sun (solar energy), wind (wind power), rivers (hydroelectric power), hot springs (geothermal energy), tides (tidal power), and biomass ...

Key drivers include government incentives supporting renewable energy adoption, the decreasing cost of solar energy systems, and ongoing research and development efforts to improve ETM ...

The chapter mainly introduces the development background and international development status of SSP. Energy crisis and global climate change are major issues that affect global sustainable ...

SLSEA - Sri Lanka Sustainable Energy Authority As the governing body responsible for pioneering the sustainable energy revolution in Sri Lanka, we aim to facilitate the development of our nation's rich energy resources, ...

Iceland has reached a major milestone in the project (Image credit: Iceland Foods) Iceland Foods has reached a significant milestone in its journey towards net zero, with its Swindon and ...

Merseyside-based renewable technology provider Shawton Energy Partners will install multiple rooftop solar arrays with a combined capacity of 10 MWp for British supermarket chain Iceland ...

Iceland Foods is to roll out rooftop solar systems across multiple sites within its retail estate. The combined energy output of the multiple installations will be up to 10MWp, enough to power ...

The future of flexible solar panels looks promising. With rapid advancements in material science, nanotechnology, and manufacturing processes, newer panels are becoming: Perovskite solar ...
