

Solar panel savings

With solar panels and a battery, you could save around 90% on your electricity bills with our Fixed Outgoing tariff or even make up to £300 profit a year with our Intelligent Octopus Flux tariff. See what you could save straight ...

On average, you could save 86% on your electricity bills with a solar & battery system. This figure is based on a sample of over 150 systems installed by Sunsave across England and Wales in 2024. The average system ...

Based on our 2025 survey of 1,000 solar customers, the national average price for a single solar panel professionally installed is \$1,200. This means most full-size systems of between 20 and ...

Calculate these nine costs before adding solar panels to your house. Solar panels can cost tens of thousands of dollars upfront, though the money they save you over a period of years may mean they eventually pay for themselves.
