

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

Last week, Malawi's energy minister visited a battery energy storage system (BESS) project in Kilokari, Delhi. The project, South Asia's largest, will soon power 12,000 low-income homes. ...

Specifically, the ESC will accelerate investment in renewable energy assets, including large-scale battery energy storage systems (BESS), community batteries, pumped hydro energy storage ...

A new report from the International Renewable Energy Agency (IRENA) finds 91 percent of new renewables in 2023 were cheaper than fossil fuel power, but warns of mounting financing and ...

At the same time, the EU can help facilitate a planned tender this autumn to build large renewable energy parks with battery energy storage, to increase Moldova's renewable energy supply and ...

Renewable energy is now a critical factor in every country's energy development, and countries around the world are planning, building, and incorporating greater amounts of wind, solar, hydro, storage, and geothermal ...

Energy Next will return to the ICC Sydney in 2025. Sydney is getting ready to host an exciting event on clean energy as New South Wales prepares to become a superpower in renewable energy. Energy Next, a free industry ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with ...

This study investigates South Africa's energy distribution patterns and examines the potential of low-voltage (LV) energy storage to address energy challenges. The research aims to ...

This paper presents an optimization study for a grid-connected hybrid energy system combining wind, solar PV, and a battery energy storage system (BESS) for hydrogen production. To ...

Energy storage news South Africa: Globeleq's Red Sands battery energy storage project eyes construction after financial close Construction at the Red Sands battery energy storage system (Bess) plant in South Africa's ...

From inspiring keynotes by leaders like South Africa's Minister Kgosientsho Ramokgopa to the Renewable Energy & Storage Hub addressing grid and finance gaps, the report showcases ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

A large battery energy storage system (BESS) in Culham, Oxfordshire, has been approved following recognition of the pressing need for energy storage to support the national transition ...

He said, "Today, nearly 50 per cent of skilled labour needs in Nigeria's renewable sector remain unmet. Employers across the country consistently report difficulty hiring qualified technicians, ...

The shift in the mining sector towards renewable energy is quickly accelerating, with a surge of solar, wind, and storage initiatives coming into view. The mining sector in South Africa is a vital component of the economy, accounting for 6% ...
