

Stores that sell lithium batteries

What exactly is a battery?

Batteries are devices that store energy to be used later. Chemical energy is changed into electricity, to power your remote, bathroom scale, boat,...

How many different kinds of batteries are there?

Almost too many to count! Batteries are typically classified by whether or not they're rechargeable, and then by what elements they use to create e...

How long should my batteries last?

There's no simple answer to that question. Some factors that affect battery life are usage, temperature, and (in the case of rechargeables) how the...

What is the "memory effect" that happens with some batteries?

Some types of batteries, particularly NiCad and NiMH, can experience a decreased capacity if you don't regularly let the battery discharge all the...

Can I recycle my batteries?

Sometimes. You shouldn't put them in your weekly recyclables/trash, however. Look for a collection point in your area, or see if your local governm...

Will my batteries really last longer if I keep them in the fridge?

Actually, that depends. Most batteries used to be made of zinc-carbon, which did last longer when stored at colder temperatures. But, that doesn't...

Which battery is better for everyday use: rechargeables or not?

Six of one, half a dozen of the other, in most cases. You'll notice with rechargeables that they start to lose their charge more quickly as you use...

Is it less expensive to buy my batteries online?

Depending on where you shop, yes. There are several reputable online battery stores that offer great deals and an even more impressive selection. T...

Looking for qualified li-ion battery suppliers in China? In this guide, we list some of China's leading lithium battery manufacturers. We also cover what you must know before importing li-ion or li-pol batteries: What types of lithium ...

Struggling with low battery life on your Samsung Galaxy Note 4? Discover where to buy a reliable replacement battery with our comprehensive guide! From top online retailers like Amazon and ...

Stores that sell lithium batteries

When searching for batteries, you can shop by battery type (Lithium, Alkaline, NiMH, and more) or by how many batteries you want in a pack. The pack sizes at Walmart went up to 1,000 batteries in one purchase. Prices start ...

Walmart might not be the first place you think of as a battery store, but it should be. It offers thousands of options, from household-use batteries to car batteries, at competitive ...
