

New bladeless wind turbine generates clean, quiet, bird-safe power New bladeless wind turbine uses vibration instead of blades, offering quieter, safer, and greener energy for homes and cities.

Germany has made offshore wind power a key pillar of its plans for an almost fully renewable electricity supply. Industry said at the start of the year that Germany is likely to reach its target ...

A wind farm is seen in Hami, Xinjiang Uygur autonomous region, in February. [Photo by CAI ZENGLE/FOR CHINA DAILY] With an abundance of strong winds and long hours of sunlight, Northwest China's Xinjiang Uygur ...

Renewable energy, usable energy derived from replenishable sources such as the Sun (solar energy), wind (wind power), rivers (hydroelectric power), hot springs (geothermal energy), tides (tidal power), and biomass ...

The sprawling Republican budget bill approved by the Senate Tuesday removes a proposed tax on solar and wind energy projects but quickly phases out tax credits for wind, solar and other ...

India Electric Vehicles: A new report reveals that India can adequately charge its entire projected electric vehicle (EV) fleet by 2032 using only 3% of its solar and wind energy targets, emphasizing the importance of daytime charging and ...

The rapid evolution of clean energy technologies marks a significant leap forward in the renewable energy industry, as environmental sustainability becomes increasingly critical. Innovations in ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (the OBBB), which significantly rolls back many of the core tax incentives that clean energy projects have relied ...

The total installed capacity of Inner Mongolia's new power plants, including wind and solar power, exceeds 135 GW, or 2.7 times more than what it was during the start of China's 14th Five-Year ...

Conclusion Wind energy offers a clear path to cut carbon and power our lives. It pays back its carbon fast. Then it runs nearly pollution-free for decades. It costs less than coal or gas. In Europe, wind lowers bills, boosts jobs, and cuts ...

Major "clean energy" investments are now in question after Republicans agreed earlier this month to quickly end US subsidies for solar and wind power as part of their budget megabill, and as ...

Wind energy clean

Section 48E (Clean Electricity Investment Tax Credit) Early Termination for Wind and Solar. Wind and solar facilities that begin construction after July 4, 2026 (one year after enactment) are ineligible for the Section 48E credit if placed in ...
